September 14-17, 2026
İzmir, TÜRKİYE

26th ROMANSY CISM-IFToMM Symposium, September 14-17, 2026 in İzmir, TÜRKİYE

http://romansy2026.iyte.edu.tr

Sponsored by: CISM - International Centre for Mechanical Sciences and IFToMM - International Federation for the Promotion of Mechanics and Machine Science

The First CISM-IFToMM Symposium on Theory and Practice of Robots and Manipulators was held on Sept. 5-8, 1973, in Udine, Italy, not long after IFToMM had been founded in 1969. The first ROMANSY, or Ro.Man.Sy., as the Symposium used to be referred to, marks the beginning of a long-lasting partnership between two international institutions, CISM, the Centre International des Sciences Mécaniques and IFToMM, the International Federation for the Promotion of Mechanism and Machine Science.

ROMANSY 2026

The 26th Symposium arrives, for the first time, in Türkiye, as RoManSy 2026 will continue to preserve this tradition by encouraging papers that are of a broad interest to the participants and by providing an environment and setting for meaningful technical and personal interactions among the delegates. In particular, the conference solicits papers providing a vision of the evolution of the robotics disciplines and signaling new directions in which these disciplines are foreseen to develop.

TOPICS

Paper topics include, but are not limited to:
1. novel robot design and robot modules/components;
2. personal, service, medical, space, and rescue robots;
3. cooperative and networked robotics;
4. challenges in control, modeling, kinematical and dynamical analysis of robotic systems;
5. innovations in sensor systems for robots and perception;
6. biomechanics, humanoid robots, biorobots;
7. educational issues.
